Gentlemen

Copies of the document entitled Draft Technical Memorandum  
No 2 Operable Unit No 2 Subsurface Interim Measure/Interim Remedial Action  
(IM/IRA) Soil Vapor Extraction Offgas Treatment Alternatives Evaluation dated  
May 20 1994 were hand delivered to your staff This document discusses potential offgas  
treatment alternatives and recommends thermal oxidation (incineration) as the preferred  
technology

As you are aware we need to upgrade the offgas treatment system for the six phase  
heating to be conducted as test two of the IM/IRA The selection of the offgas treatment  
system is critical to the schedule for test two In order to facilitate the process of  
acquisition we are requesting your comments by June 6 1994 If we do not receive any  
critical comments we plan to begin acquisition of the preferred offgas treatment system

If you have any questions please direct them to Scott Grace at 966 7199

Sincerely

Jessie Roberson  
Acting Assistant Manager for  
Environmental Restoration
